MARAEKAT INFOTECH LTD.

Who is this best for?

Suitable for travel agents, tour operators and consolidators selling services to other travel agencies.
If you are a large consolidator, the B2B makes it very easy to track the activities of your sub agents.

How Does It Work?

The search or booking engine is connected via API with multiple airline suppliers, hotel supplier's bus suppliers and car suppliers and also to several GDSs (Amadeus, Galileo, Worldspan) and consolidators (Mystifly, Desia) and it is easily managed from its own dedicated admin panel having dynamic features at back end.
